BANKS TAKE OVER

ENTIRE QUOTA

but Citizens May Buy Bonds From Banks and Save Time.

The Bankers of the county get together and subscribe for the county's entire quota of "Victory Loan United States Government Notes." This is a small and very attractive loan especially to the small investor Ohio County's quota is only \$164,200 an oversubscription will not be accepted by the department.

It is to be issued in the form of notes and not bonds.

They will be issued in Denominations of \$50 or multiples thereof to suit the purchaser will run for a period not to exceed four years, bear interest at the rate of 4-3-4 per cent annum, payable Semi-annually, and may be either coupon or registered.

The safest security in the world to-day, and the income exceptionally attractive. An opportunity of a life time to invest savings with no risk, no worry and good returns.

"Uncle Sam" is not going to use this money to buy ships, airplanes, Guns nor shells, but to vouchsafe your integrity, to protect your honor in fully meeting the obligations and thoroughly complying with the contracts made when autocracy had its hand upon the throat of Democracy, and to bring back home and demobilize those noble boys who fought humanity's battle and won "A Glorious Victory."

How you would spurn the boy of that great and victorious army who slunk behind and failed to throw his all, his very life into that last charge, and with what pride he, his children and grand-children will recite the part he played.

This is the last financial charge the part that you have played in winning this great war, while not as hazardous, was as important as that of the boy at the front. You have acted well your part. You have met every financial demand and Ohio County's financial banner stands well at the front.

The bankers of the county have guaranteed that this last charge shall not fail, but the department asks that every patriot rally to the colors and as many buyers participate in the loan as in any of the others. I have great faith that this will be the case. Ohio County has very few slackers she has few rich men, but she has thousands of noble red blooded patriots who will do their duty under all circumstances.

No one is going to importune you to buy these bonds, you will not be visited by a solicitor, but all you will have to do is to call upon, write or phone one of the banks of the county and they will furnish you what you want. This is to be a test of individual patriotism. You will either willingly help to finish the job or willingly desert. It is up to you. I hope that you will see in this plan of distributing these bonds only a saving of expense, economy of time, and confidence in your patriotism.

In conclusion allow me to publicly thank the Bankers of the county who have so solidly stood by the nation's credit during this entire war. Every vestige of personal selfish interest has been swept aside and the decks kept fully cleared ready for any kind of financial action asked by the department. Not an order has been questioned, not an exemption asked. The student of future history must doff his hat to such unselfish, sacrificing patriotism. To the scores of men and women who have practically suspended their individual business and given their whole time as committee in the sale of the various issues of Liberty Loan Bonds, I want to extend the thanks of a grateful heart and say yours has been a great service. To the many friends who have shut their eyes to any possibility of financial gain and bought these various issues of bonds at a sacrifice because it was their duty to finance the war I bend the knee in respect and reverence and say, hold on to them you have a great treasure, something of which you will always be proud.

For the traitor and slacker, if such an one there has been, I have no condemnation. The lashing of

his own conscience as he reads the names of those who have made the supreme sacrifice, looks into the sightless eyes, touches the empty sleeve, or hears the rough knock of a substitute for a leg will be enough. For all I have but good wishes and cheers and only one request "Finish the Job."

I fear no matter how much you have done, when you shake the hand and look into the eyes of those noble boys you will feel something like a quitter or slacker if you haven't bought a "Victory Loan Note."

Most Respectfully,
JNO. H. BARNES Chairman,
Ohio County Liberty Loan Organization.

KEPT MARRIAGE SECRET OVER A MONTH

Quite a few were surprised and all greatly delighted in our neighbor town of Centertown when the romance of two of its most popular young people came to light and it was learned that they had been married for more than a month.

A little more than a month ago, Miss Nellie Goodall decided to visit her aunt in Owensboro. On the day that she was to leave, her sweet heart, Spurgeon Park, son of Mr. Milton Park, of near McHenry, asked her father's permission to accompany the young lady to Owensboro. Of course it was given. The young lady made her visit and returned home. The young man had already returned. And so for a month, no one suspected that they were married. Finally someone intimated that he believed the young couple were married, they were asked directly and confessed that the matrimonial knot had been tied the day they went to Owensboro, they having crossed to Rockport. The bride is 18 and the groom, 22.

THREE INJURED IN ACCIDENT

Saturday afternoon, Isom Midkiff and wife, colored, were driving toward town when their horse became frightened and ran away tearing the front of the buggy off and kicking Midkiff on the hand and tearing it open. The woman jumped from the buggy and sprained her ankle very badly and was seriously bruised about the body. The accident occurred near the home of Melvin Stewart about four miles from town on the Sandefur Crossing road. Cecil the twelve year old son of Mr. Stewart started to the pasture to catch a horse to convey the colored people to their home and the horse he was riding threw him breaking his left arm. Dr. Willis was the attending physician.

LOCUSTS HAVE NOT ARRIVED YET

Although this the year in which the 17-year locusts are due, Vanderburgh-Co farmers haven't seen any signs of them yet, said County Agent Ross Atkinson when told about reports of the locusts appearing in northern Indiana.

Atkinson says the farmers are fully expecting the locusts, however, when the weather warms up, and they are making plans to combat them.

WAR TANK CHARGES

ON HARTFORD STREETS

Thousand People Witness the Spectacular Parade Wednesday.

Last Wednesday was a red-letter day in Hartford. Early in the morning crowds began to gather in and all day they kept increasing until noon, when the streets looked like we always imagined Broadway in New York did when Hobson held his kissing bee. The occasion was the coming of a war tank, fresh from the fields of France, and manned by boys who had withstood the by boys who had with stood the barrages of the Huns.

The tank was not one of the large militant machines that were used to smash trenches but was one that was used as a follow up, in the "Mopping up" that followed the charge. It was skillfully manipulated and the whirr of its engines and the intermittent discharge of its guns sounded ominous, bringing home to those who watched the picture of the battlefields of France. The tank was used in interest of the Victory Loan and was followed by speeches of the soldiers and others. It was taken to Fordsville for another exhibition Wednesday evening.

ELECTED TO IMPORTANT OFFICE

Mr. R. R. Riley and Dr. E. E. Pendleton spent last week in Lexington attending the state convention of the Order of the Maccabees. While there Dr. Pendleton was elected to be Supreme Representative, an office that is so exclusive that only two are allowed in a state. This was a signal honor to Hartford, to Ohio County, and one we should feel proud of. In competition with Louisville and all the other great centers of the state for Hartford to receive this honor is an honor indeed and we owe Dr. Pendleton our congratulations.
